# CYBERSECURITY IN THE CONSTRUCTION INDUSTRY

**MATT ABELES**

VICE PRESIDENT OF CONSTRUCTION  
TECHNOLOGY AND INNOVATION  
ABC NATIONAL

Construction companies are facing an increasing threat from cyber-attacks. It's essential for these firms to recognize their vulnerabilities and take proactive steps to protect their data, projects, and reputation. Cybersecurity should be a priority for the industry, and with the right measures in place, construction companies can build a stronger defense against the rising tide of cyber threats.
